Dr. Gill joined the University of Southern California (USC) in mid-2009 as chairman & professor, department of urology. Prior to this, he was chairman & professor, department of urology at Cleveland Clinic, Cleveland, OH (1997-2009).

His academic track record includes 513 peer-reviewed papers, 10 text-books and editorial board of 9 urologic journals. Funded by the NCI, he has been an invited visiting professor to over 369 institutions worldwide, and has performed live surgery demonstrations at over 81 centers. He is elected to the prestigious American Association of Genito-Urinary Surgeons (2003) and the Clinical Society of AAGUS (2009).

In 2005, the President of India awarded Dr. Gill the Dr. B. C. Roy National Award for Eminent Medical Person, the first time a physician living outside India has been selected for this singular national honor. In 2006, he was awarded the St. Paul's Medal by the British Urological Association (BAUS) for 2006, the highest honor. He has been named honorary Fellow of the Royal College of Surgeons of England. In 2006, he was President of the 24th World Congress of Endourology and SWL.

Dr. Gill's primary focus is advanced robotic urologic oncologic surgery, with one of the world's largest aggregate laparoscopic/robotic experiences in approx 9,000 cases in the United States. An acknowledged world leader in robotic/laparoscopic partial nephrectomy for renal cancer, he and his team have performed this procedure in over 2,000 patients. His team is actively developing flexible robotics, natural orifice and single-port laparoscopic surgery in urology, innovative concepts towards scar-free surgery. Over the past 3 years, Dr Gill and his team are focusing on developing novel image-guided targeted biopsy and lesion-specific focal therapy treatments for prostate cancer.
